6. Authorization

Please activate this feature within my EQUI-VEST contract. I have read and understand the *Terms and Conditions* as stated on page 3.

Signature of Annuitant: _____ Date: _____

Terms And Conditions

1. Your asset rebalancing election will include both your variable investment options and the GIO only if you elect Option II. We will transfer amounts among your variable investment options and the GIO to arrive at the allocation percentages in Section 5 on each rebalancing date. If you elect Option I, then only your variable investment options will be included in your asset rebalancing calculation; in order to reallocate the amount in the GIO, you must transfer amounts in or out using TOPS or Online Account Access.
2. Asset Rebalancing does not allow you to include only a portion of your variable investment options or only a portion of your balance in the GIO. If you elect Option I, we will include your entire balance in the variable investment options, and none of your balance in the GIO, to arrive at the allocation percentages in Section 5. Similarly, if you elect Option II, we will include your entire balance in the variable investment options and your entire balance in the GIO to arrive at your allocation percentages. **You cannot select more than 20 investment options**
3. Asset Rebalancing does not affect your allocation for future contributions.
4. To elect the Asset Rebalancing Feature the contract account value must be at least \$5,000, exclusive of the GIO if Option I is elected. If Option II is elected then the contract account value must be at least \$5,000.
5. If you request a transfer while the rebalancing program is in effect, we will process the transfer as requested; the rebalancing program will remain in effect unless you request that it be canceled in writing.
6. Option II cannot be elected if the Investment Simplifier option has been elected.
7. Asset Rebalancing does not guarantee a profit or protect against loss in a declining market.
